leadership passion
motivation
dedication discipline
excellence heart

North Country Charter Academy Board of Trustee members ushered in the 10th year of NCCA's operation and while it was business as usual, there was also a sense of great excitement in the air because of all there was to celebrate. NCCA not only met its mission but exceeded its goals. As of June of 2014, NCCA graduated a total of 362 students, many former high school dropouts, and approximately 44% of the first three graduating classes entered post-secondary education. The board, along, with staff, held a celebration at the end of its millennium year that included a reunion for all graduates and a special event for the school's founders and supporters. NCCA topped everything off with a grand graduation held in the Grand Ball Room compliments of the Mount Washington Hotel. The NCCA Board of Trustees has been honored to partner with and serve the sending districts in support of the at-risk population of the North Country. NCCA celebrates not only the success of our students but the success of our Board of Trustees. Thank you!

NCCA Staff
